Honeywell is taking quality and reliability to the next level with the line of mounts and accessories for the new HDZ PTZ cameras. The mounts can be used to install the new HDZ line of PTZ IP cameras to a variety of surfaces. The HDZ PTZ mounts can be used to install the 1080p IR IP PTZ domes in a number of installation scenarios, giving maximum flexibility for positioning the PTZ dome.

The simple, solid design of these mounts is an installer's first choice for ease of installation. All of the mounts provide easy cable routing and the PTZ domes can be installed, adjusted, and tested without repositioning the housing. The ceiling mount and extension poles all use a G1.5 thread for easy installation.

All the mounts feature die-cast aluminum or galvanized steel construction with an off-white powder coating finish that exactly matches the cameras' finish.

### Market Opportunities

Honeywell's new line of mounts and accessories for the HDZ IP PTZ domes provide performance and strength you can depend on. The attractive design, impact-resistant construction, and range of mounting options make these mounts the best solution for all of your indoor and outdoor PTZ dome applications.
